Congratulations to partner Christian D. Chambers on his selection in Hawaii Business Magazine's 20 for the Next 20. He started with Lung Rose Voss Wagnild in 2009, where he developed skills as a litigator in real estate development and health care where his work with The Queen's Health System led him to an area he's passionate about: securing long-term treatment for people with severe mental health challenges. Chambers serves on the board of HUGS, which aids young people with disabilities and their families, and spearheads the firm's technology efforts and managing younger attorneys.
